

Prescription Refills

Please direct prescription refills through your pharmacy, as they are transmitted electronically and your pharmacy has all the needed information available.

Please be on time for your appointment. We request that you arrive a few minutes early for your appointment to allow time for check-in. If you are late for your visit, we may need to reschedule you, so that our providers can stay on time for all patients. Our providers strive to stay on time during the day but sometimes emergencies or complicated visits can happen. We thank you for your patience during these times.

We need your full attention at your visit and request that you silence your cell phone in our office.
